

## SB 22

### Spindle Oil

#### Specification and Approvals

ISO Viscosity Grade ISO 3448

#### Description

MOGAS SB 22 is a highly refined mineral oil for use in the processing of natural and artificial fibers in the textile industry.

#### Features and Benefits

- ◆ The low viscosity of the oil ensures easy application and penetration into the fiber.
- ◆ Protects and extends machine life through lubrication.
- ◆ Ensures clean, clear, non-staining and efficient processing.

#### Applications

MOGAS SB 22 can be applied as spray or roll-on to the fibers to minimize friction in the drafting, carding, twisting and weaving of the textile fabric.

#### Typical Properties

Test Parameters		Test Method	22
Viscosity @ 40°C	mm <sup>2</sup> /s	ASTM D 445	30.5
Viscosity @ 100°C	mm <sup>2</sup> /s	ASTM D 445	5.24
Viscosity Index		ASTM D 2270	95
Pour Point	°C	ASTM D 97	-9
Flash point (COC)	°C	ASTM D 92	200
Density @ 20°C	kg/l	ASTM D 4052	0.867

The typical characteristics mentioned represent mean values

#### Health and Safety

This product used as per our recommendation for the intended application is not expected to produce any particular risk. A safety data sheet of it is available upon request from our sales contact office or on our website. In case of used oil disposal, please respect the Regulations to protect the environment.
