

## AGRITRAK 80W

### Multifunctional Universal Tractor Transmission Oil (UTTO)

#### Specification and Approvals

API GL-4, Eaton Vickers 35VQ25

Ford M2C41B, M2C48-B/C, M2C86-B/C, M2C134D, White (Q-1705, 1722, 1766, 1766B, 1802, 1826)

Massey Ferguson 1129A, 1127 A/B, M1110, M1135, M1141, M1143, M1145

John Deere J 14 A/B/C, J 20C, J20D, J21A; Allison C-3, C-4,

J.I. Case / Case International (MS-1204, 1205, 1206, 1207, 1209, 1210, JIC-143, 144, 145, 185)

Caterpillar TO-2, Denison (HF-0, 1, 2), Kubota (UDT Fluid)

#### Description

MOGAS Agritrak UTTO series are high performance fluids for use in transmissions, hydraulic systems and oil immersed brakes of tractors and off-road equipment.

#### Features and Benefits

- ◆ Enhanced frictional properties optimize clutch performance and ensure noise-free wet brakes.
- ◆ High viscosity index coupled with high shear stability provides consistent performance.
- ◆ Excellent low temperature fluidity provides effective lubrication at low ambient temperatures.
- ◆ Robust anti-wear and EP properties extend equipment life and keeps maintenance costs low.
- ◆ Multipurpose capability reduces inventory and prevents accidental contamination and misapplication.

#### Applications

For use in tractors and equipment requiring a common fluid to lubricate transmission, differential and hydraulic system. It is recommended for off-highway equipment in agriculture, construction and quarries; Caterpillar power shift transmissions requiring a TO-2 fluid and in transmissions requiring API GL-4 grade.

#### Typical Properties

| Test Parameters         |                   | Test Method | Agritrak 80W |
|-------------------------|-------------------|-------------|--------------|
| Grade                   | SAE               |             | 80W          |
| Viscosity @ 40°C        | mm/s <sup>2</sup> | ASTM D 445  | 51           |
| Viscosity @ 100°C       | mm/s <sup>2</sup> | ASTM D 445  | 10.1         |
| Viscosity, CCS @ - 20°C | mPas              | ASTM D 5293 | 3500         |
| Viscosity Index         |                   | ASTM D 2270 | 170 min      |
| Pour Point              | °C                | ASTM D 97   | -39          |
| Flash point (COC)       | °C                | ASTM D 92   | 220          |
| Density @ 20°C          | kg/l              | ASTM D 4052 | 0.885        |

The typical characteristics mentioned represent mean values

#### Health and Safety

This product used as per our recommendation for the intended application is not expected to produce any particular risk. A safety data sheet of it is available upon request from our sales contact office or on our website. In case of used oil disposal, please respect the Regulations to protect the environment.
